

BroadBand Pro (BBP-AU)

Programmable sonic/ultrasonic species-specific repeller includes three visual devices

Get rid of the most stubborn bird infestations with the most complete, comprehensive, and multi-faceted approach

- Use with full ultrasonic and sonic capabilities, or just ultrasonic, depending on how the situation changes
- Control box plus four separate speakers, each with 100 feet (30m) of wire, offer convenient, flexible coverage
- Customise by choosing volume, mute time between sounds, hours of operation, and random or sequential play
- BroadBand PRO works well in conjunction with visual scarers to deter birds in a multi-sensory assault: Bird Strobe Light, Irri-Tape, Terror-Eyes and Prowler Owl:

Ultrasonic/ Sonic unit repels birds with an unrelenting combination of species-specific distress cries, predators, general harassments and ultrasonic waves!
