

# YardGard - Electronic Pest Repeller

**Yard Gard Repeller deters cats, dogs, rabbits, possums, rodents and other small animals**

- Built-in infrared motion detector activates when pests move into its coverage zone
- Continuous or motion-sensor operation modes
- Mount **YardGard** anywhere with keyhole slots

Humane, effective, maintenance-free electronic **Yard Gard** is a superb pest deterrent. Always on

guard, it keeps animals away from your property without messy or expensive chemical solutions.

Independent laboratory testing has proven **YardGard** sound technology to be a highly effective form of pest control.

Use it to repel unwanted animal visitors including deer, raccoons, skunks, opossums, armadillos, rodents, bats, insects and other creatures.
